

Familiar Phrases At EHS

This has truly been a unique year at EHS. Various members of our illustrious Senior Class have contributed many phrases that have turned this school upside down. The most popular phrase around Elba this year has made its permanent home in the Senior class motto. It's not unusual at all to hear a Senior yell that familiar phrase, "Go for it!"

There were the phrase that was appropriate for every occasion - BIONIC. It didn't matter if something was good or bad, it was bionic. It seemed a natural thing to hear someone complaining about that "bionic test" or describing someone's "bionic new car."

And if something ever went wrong, there was no need to fret or worry. All one had to do was, "Shake it off!"

If anyone wanted a little extra excitement, and if he knew the right people he could always have a "Gang" at "the Traders."

These, and many other phrases helped make up our special language at EHS. Everyone spoke it, and everyone understood it. And as far as this school year was concerned, if an outsider asked how students feel about old EHS, the unanimous reply would be, "Ahh, that's great!"

Seniors Awarded Scholarships

Terri Davis and Sheila Harrison, seniors at Elba High School, were recently awarded scholarships to Enterprise State Junior College. The scholarships were awarded for academic excellence.

Terri Davis is the daughter of Mr. and Mrs. Robert Davis of Route 3, Elba.

Sheila Harrison is the daughter of Mr. and Mrs. Wayne Harrison of Route 3, Elba.

Angela Bartley, age 16, also received an academic scholarship to George C. Wallace State Junior College School of Nursing.

Angie is a senior at Elba High School and plans on becoming a certified registered nurse at Enterprise State.

Beta Club Has New Officers; Initiation

The EHS Beta Club enjoyed its annual initiation supper at the County Lake Wednesday afternoon, the sixteenth of May. There were 33 new members being initiated. The requirements for joining the Beta Club are to have all A's and B's for at least two consecutive semesters. After looking for a marble in a garbage can full of dog food, bobbing for apples in syrup and corn flakes, and finally eating worms (7); the initiates enjoyed eating grilled hamburgers and french fries. After supper, the new officers were announced. They are as follows:

President - Tina Goodson
Vice-president - Carol Holt
Secretary - Betsy Brunson
Treasurer - Mark Clark
Reporter - Wanda Walker

Junior Beta Club Meets

The meeting was called to order by the President, Flannery Kendrick, and the roll was called by the Secretary, Julie Mauldin. The roll was called by the Secretary, Julie Mauldin.

Mr. Windham, the Jr. Beta Club sponsor then announced the officers for 1979-80. He also complimented this year's officers on doing such a good job. He announced that the annual hamburger cookout would be held this month.

It was recognized by Andy Bullard that all of the ninth graders who wanted to be in the Senior Beta Club next year would have to pay their dues (\$7.00) to Mr. Sharpless by Wednesday, May 16.

The officers were presented mugs that had the name of office that they held on the mug.

Everyone enjoyed delicious refreshments and the meeting was adjourned.

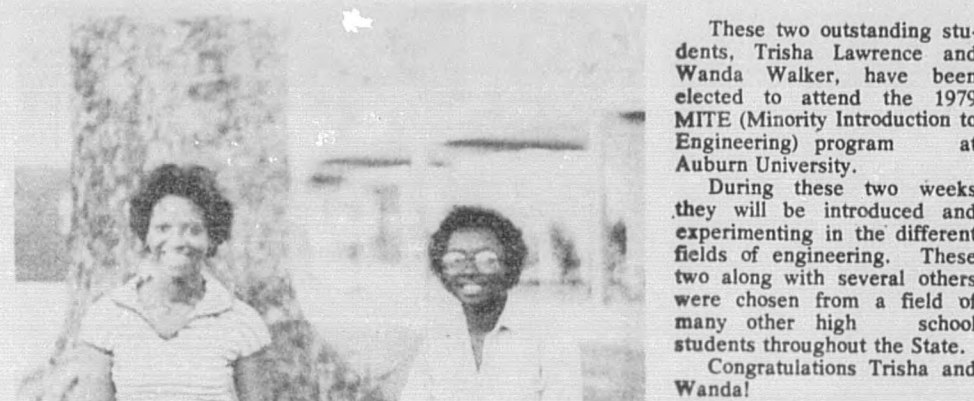

Eating Supper

79-80 EHS MAJORETTES

Tammy Ashe - Head Majorette; Vonda Marler, Nina Calhoun, Shannon Hargrove, Kim Parrish, Kim Whitman, Sherry Kennett and Pam Kelly, Jessica Hudson, Karen Grider.

Outstanding Students To Attend MITE

These two outstanding students, Trisha Lawrence and Wanda Walker, have been elected to attend the 1979 MITE (Minority Introduction to Engineering) program at Auburn University.

During these two weeks they will be introduced and experimenting in the different fields of engineering. These two along with several others were chosen from a field of many other high school students throughout the State. Congratulations Trisha and Wanda!

REMEMBER

...First period English Lit. and "Chance."
...The night we beat Andy?
...The night we beat Z.C.?
...Walking to the Middle School for lunch?
...Ms. Farmer's Mythology tests?
...Second period in Mr. Sharpless' office?
...Annual Staff?
...Making Senior portraits?
...Homecoming?
...The Beta Club Convention?

1978-79 Final Test Schedule

All 7th, 8th, 9th, 10th and 11th grade students will take their semester tests on May 28 and 29.

4th period test - 5th and 6th periods

3rd period test - 3rd and 4th periods

5th period test - 5th and 6th periods

2nd period test - 1st and 2nd periods

4th period test - 3rd and 4th periods

1st period test - 1st and 2nd periods

3rd period test - 3rd and 4th periods

5th period test - 5th and 6th periods

2nd period test - 1st and 2nd periods

4th period test - 3rd and 4th periods

1st period test - 1st and 2nd periods

3rd period test - 3rd and 4th periods

5th period test - 5th and 6th periods

2nd period test - 1st and 2nd periods

4th period test - 3rd and 4th periods

1st period test - 1st and 2nd periods

3rd period test - 3rd and 4th periods

5th period test - 5th and 6th periods

2nd period test - 1st and 2nd periods

4th period test - 3rd and 4th periods

1st period test - 1st and 2nd periods

3rd period test - 3rd and 4th periods

BRAINSTORMS

With F. John Cox

The State of Alabama has fired a whole bunch (six) of employees of the State Building Commission, including the director. The reasons given by the Fob James Finance Director, David Bruns, included some embezzlements and one case of doing nothing for several years. We don't doubt there has been a lot of wrongdoing, and some of it is still going on today. We heard one amusing story about a carpenter called in to testify before this committee of newly-appointed state employees and being asked several times about a cut on his forehead, and if he got it doing work on private property while on the state payroll. Finally backed into a corner, the man reportedly burst out with, "It was that dog house the governor's wife (Mrs. James) had me do over!" The story goes that the line of questioning quickly changed to something else.

The final results are public on the grades received on the California Achievement Test given as part of Fob's campaign promises to teach children to fill out job applications. We haven't actually received the entire final report in our office, and we only have half the results; however, it is a bit frightening to see some high school senior classes are averaging seventh and eighth grade learning. The report shows one county with the highest class score is seventh grade, eighth month (or just about what seventh-grade students in the Elba seventh grade, or a Coffee County school, scored, and LESS than the score of the Enterprise seventh grade! Far more than half the high-school seniors in the state scored below the national average!

The final scores on the show Enterprise students scored above the national average in every grade; Elba fell slightly behind in grades seven, eight, ten and eleven, while the Coffee County system was even in the sixth grade, but fell behind in the top six grades, with the senior average reaching only eleventh grade. It should be noted, however, that within the county system, the first five grades scored either the highest in the state or right up with the top scores. This drastic reversal of grade trends within a single system tends to support Governor James' contention that basic skills must be taught in the "grammar" school for students to keep up and/or stay ahead.

The Coffee County Commission voted Monday to buy two dump trucks without taking bids, calling it an "emergency purchase." At last meeting, two weeks ago, they opened bids on two trucks and accepted the low bid with delivery in October. Now they buy two more and at a lower price than the first two. We don't quarrel with the cheaper price, and don't know anything about the need, but we do question the action on two points: 1) Our reading of their right to get around the bid law by declaring an emergency indicates it is a limited right and doesn't cover this. 2) We question the management of our county equipment when they have been using dump trucks for years and there is no sudden jump in need, no recent wreck of dump trucks, and yet, in a short span of less than two weeks, they all of a sudden have to buy two additional new trucks after the fact. This can cause more problems than your undercurrent of talk about putting on a 1-cent sales tax county-wide!

The State of Florida did execute one of their death-row inmates last week, much to my surprise. The legal eagle ran out of delaying tactics and the execution took place minutes after the U. S. Supreme Court refused to delay it any longer. We favor capital punishment, yet feel sympathy for the family of the man executed last week. Another angle to this particular story is the report that his partner in crime was acquitted and now walks around telling just how he hit the murder victim in the head during the killing. He reportedly said the truth had been told, he, too, would be on death row. Boy, that even makes me wonder... when one guilty person is executed and the other walks around telling about the incident (of course he mixes in some religion to make it sound good).

We had a complaint this week about Mayor Folsom and City Attorney G. A. Lindsey "giving away" truck loads of city water. We went to the place reported with our trusty camera, but any trucks in the area had already moved. Mayor Folsom said the lines need occasional draining (we know this is often done) to get collected sediments out of the ends of lines. He also said he would rather give the water to someone needing it than to dump it on the ground. We don't know if the line needed flushing or not, but we agree with Folsom - it is foolish to waste anything that can be used; however, we also shudder to think of the ways this idea can be abused by anyone wanting to abuse it at any time. Bob and Gareth were criticized by an Elba taxpayer, and we don't have a black and white response!

U. S. Senator Howell Heflin was in Elba this week and Mayor Folsom took him to the Pea River Dam and made a pitch for federal money to get the power plant back into production. We didn't ask the good Senator for his response to the matter, 'cause it probably would be a political answer we couldn't understand anyway. The facts are - he went, he saw, and he knows what Bob wants.

It has been a bit embarrassing to ye ole editor during the last several weeks to have people ask how the fishing was when there was only one fish for an answer. There should be a law that prevents folks I owe from insisting on enough work to pay bills for something already used and forgotten!

FRANK ASHE FORD
announces
the addition of
MARVIN McILWAIN
to the staff as
Finance and
Insurance Manager.

Marvin McIlwain

Marvin invites all his friends to come by
and let him and the other members of the
FRANK ASHE FORD team serve them in their
automotive needs.

IN THE WEEKLY COLUMN OF U.S. SEN. DONALD STEWART

ALABAMA'S INTEREST

In about 500 service stations, most of them in the Midwest, there is a new gas pump in addition to the ones marked Regular, No Lead or Premium. It's for gasoline, a fuel consisting of nine parts gasoline and one part alcohol and something that a lot of people believe could be a tremendous boost to this country as we fight our future energy wars.

Unquestionably, the key to finding a workable solution to our present fuel crisis is to reduce our dependence on foreign oil. This dependence not only fuels inflation, but it also contributes to our large foreign trade deficit and weakens the dollar on overseas exchanges.

Gasohol won't solve those problems by itself. But by using alcohol for 10 percent of our gasoline mixture, we would, basically, be "stretching" our gasoline supplies by an equal amount. In fact, it has been estimated that by 1985, gasohol use could reduce our oil imports by as much as 500,000 to 1 million barrels a day - roughly 5 percent of the nation's projected oil consumption for all purposes. Others estimate that we could eventually reduce our dependence on foreign oil by more than 20 percent.

But energy is not the only problem area where gasohol could help us. It could also greatly assist the American farmer. Alcohol fuels can be distilled from corn, sorghum, and other crops. "Fessor" is coming to be with the graduates of Elba High School the years of 1927, 1928, 1929, and 1930 at our reunion to be held Saturday, June 2, 1979 at the Elba Middle School cafeteria beginning at 7:00 p.m.

We are going to have a reception and open house and ask that our relatives, friends and especially any person who was a student in the Elba Schools from the year 1926 to 1930.

You will say I am prejudiced, but to me "Fessor" came the nearest to being a "GREAT" man we local people were fortunate enough to have come our way and he couldn't have come at a better time. There is no way of knowing how many students of Elba received an education during those depression years simply because "Fessor" would find some way to encourage them to continue.

Very truly yours,
Foy W. English

Dear Ferrin and Staff,

Thank you for every effort in always helping me through your news media in my HRDC work.

Sincerely,
Addie Lou Taylor

Dear Ferrin,

The Analee Garden Club would like to thank you for all the publicity you and your paper gave us to advertise the "Taster's Fair". We always appreciate the help you give us!

Sincerely,
Kate Murphree

There are signs now that even the government is beginning to admit that gasohol may have a role to play in our energy future. In the past, bureaucratic red tape has effectively strangled gasohol's potential. Beyond that, the cost of complying with government statutes and of meeting federal tax obligations had been tremendous, and had played a prime role in discouraging its production.

However, the Treasury Department has now begun to eliminate some of those bureaucratic obstructions. Now, any person who wants to produce alcohol as a liquid fuel for use in his automobile or on his farm or his business is exempt from a lot of the red tape, taxes and other unnecessary expenses that were

previously incurred.

In the U.S. Senate, Frank Church of Idaho has introduced legislation this year mandating that at least 10 percent of the fuel used by automobiles in 1990 be gasohol. And Rep. Berkeley Bedell of Iowa has a bill that would guarantee farmers new and higher profits with price supports for crops used in alcohol production. Such a program, he believes, can replace the Agriculture Department's existing set-aside plan by guaranteeing farmers a target price for gasohol crops.

And what is the impact on the American automobile? Well, gasohol sells today competitively at about the price of unleaded premium gasoline. Alcohol fuels have been shown to get identical mileage in some cases, even better - mileage than gasoline - and can be burned in existing cars or truck engines without damaging them. Gasohol is a high-octane, clean-burning fuel that greatly reduces engine knocking and improves cold-weather starting capacity. It also decreases engine wear, thus lowering maintenance costs.

As I said before, gasohol is not by any means the sole solution to the energy problem. I don't think there is any one single silver-bullet solution. But by combining our existing technology with alternative technologies such as gasohol and solar energy, I believe we can have a significant impact on the direction of our energy future takes.

At a paid before, gasohol work as culinary cook, administrative clerk, and laundry operator. Still another conversion for life for murder and armed robbery gets \$10,540 as a supply unit warehouseman.

The irony of this situation is that the taxpayers are suffering a double ripoff. They are paying \$10,000 a year in CETA salaries to incarcerated criminals who are nowhere near parole or freedom, while at the same time paying prison costs of \$9,800 per prisoner per year to house, feed and clothe them. At the same time, D.C. only charged these "CETA prisoners" \$2.00 per day for room and board. A news report states that these prisoners even get paid vacation and the five and one-half percent cost of living raise given other federal employees last year.

Congressman Cavanaugh believes this scandal may be nationwide and costing the tax-

payee millions. He has asked the Department of Labor to half all further expenditure of CETA funds to pay salaries of incarcerated criminals, and to initiate proceedings to recover the funds wrongly expended through this program.

However, the program has been supported the CETA concept because its stated purpose is to train the "untrained" - to prepare the "hard-core" unemployed for permanent long-term employment.

One inmate who gets \$9,838 per year as a plumber cannot be released from prison before the year 2003. Another serving 54 years for armed assault gets \$9,991 for working as a library technician in the prison. Three inmates serving life for crimes involving murder, robbery, conspiracy, are each receiving \$9,838 for their respective work as culinary cook, administrative clerk, and laundry operator.

A news report states that these prisoners even get paid vacation and the five and one-half percent cost of living raise given other federal employees last year.

Congressman Cavanaugh believes this scandal may be nationwide and costing the tax-

payee millions. He has asked the Department of Labor to half all further expenditure of CETA funds to pay salaries of incarcerated criminals, and to initiate proceedings to recover the funds wrongly expended through this program.

However, the program has been supported the CETA concept because its stated purpose is to train the "untrained" - to prepare the "hard-core" unemployed for permanent long-term employment.

One inmate who gets \$9,838 per year as a plumber cannot be released from prison before the year 2003. Another serving 54 years for armed assault gets \$9,991 for working as a library technician in the prison. Three inmates serving life for crimes involving murder, robbery, conspiracy, are each receiving \$9,838 for their respective work as culinary cook, administrative clerk, and laundry operator.

At a paid before, gasohol work as culinary cook, administrative clerk, and laundry operator. Still another conversion for life for murder and armed robbery gets \$10,540 as a supply unit warehouseman.

The irony of this situation is that the taxpayers are suffering a double ripoff. They are paying \$10,000 a year in CETA salaries to incarcerated criminals who are nowhere near parole or freedom, while at the same time paying prison costs of \$9,800 per prisoner per year to house, feed and clothe them. At the same time, D.C. only charged these "CETA prisoners" \$2.00 per day for room and board. A news report states that these prisoners even get paid vacation and the five and one-half percent cost of living raise given other federal employees last year.

There are signs now that even the government is beginning to admit that gasohol may have a role to play in our energy future. In the past, bureaucratic red tape has effectively strangled gasohol's potential. Beyond that, the cost of complying with government statutes and of meeting federal tax obligations had been tremendous, and had played a prime role in discouraging its production.

However, the Treasury Department has now begun to eliminate some of those bureaucratic obstructions. Now, any person who wants to produce alcohol as a liquid fuel for use in his automobile or on his farm or his business is exempt from a lot of the red tape, taxes and other unnecessary expenses that were

previously incurred.

In the U.S. Senate, Frank Church of Idaho has introduced legislation this year mandating that at least 10 percent of the fuel used by automobiles in 1990 be gasohol. And Rep. Berkeley Bedell of Iowa has a bill that would guarantee farmers new and higher profits with price supports for crops used in alcohol production. Such a program, he believes, can replace the Agriculture Department's existing set-aside plan by guaranteeing farmers a target price for gasohol crops.

And what is the impact on the American automobile? Well, gasohol sells today competitively at about the price of unleaded premium gasoline. Alcohol fuels have been shown to get identical mileage in some cases, even better - mileage than gasoline - and can be burned in existing cars or truck engines without damaging them. Gasohol is a high-octane, clean-burning fuel that greatly reduces engine knocking and improves cold-weather starting capacity. It also decreases engine wear, thus lowering maintenance costs.

As I said before, gasohol is not by any means the sole solution to the energy problem. I don't think there is any one single silver-bullet solution. But by combining our existing technology with alternative technologies such as gasohol and solar energy, I believe we can have a significant impact on the direction of our energy future takes.

At a paid before, gasohol work as culinary cook, administrative clerk, and laundry operator. Still another conversion for life for murder and armed robbery gets \$10,540 as a supply unit warehouseman.

THE PRESSBOX

With Ricky Mularz, Sports Editor

The "Elba Softball Classic" and the "Elba Women's Classic" are getting closer and the trophies are already in. I think we've got the best looking trophies I've seen and I wish to thank all the merchants who sponsored the awards. There are still openings in both tournaments, and I urge all local teams to enter, now!

Leavy Boutwell was named the head coach at New Brockton last week and I guarantee you he is most deserving. Leavy was a classmate of mine at Elba High, and he lived and breathed football. He was an outstanding player and received many honors. However, it was the size of your body, and not your heart, that got people scholarships, and the college scouts said Leavy was just too small. So, Leavy worked his way through college and excelled in the classroom. After graduation, there weren't many teaching jobs available and Leavy got a job at a local business. Leavy was named an assistant-coach at New Brockton two years ago and was in charge of the defense and the offense. Boutwell's student-athletes took on the personality of their teacher, and became hard-working men, as was evident last season when the Gamecocks recorded four shut-outs. Leavy is an intelligent man who is always looking for ways to learn new things, and I think the people of New Brockton have landed a fine young coach. Good Luck!

The crowds at all the ballgames have been good this year, especially at the Dixie Youth games. The parents are turning out to support their kids and it is just great. Keep coming, mom and dad, they need your support.

Luverne has recently built some new ballfields and they now have a full-time recreation director. His salary is a cool \$18,000 a year! I think we got a bargain when we got Dennis Smith and I urge everyone to tell him how much you appreciate his work.

Dodgers Grab BR Lead

The Dodgers' claimed 2 wins last week to move into first place in the Babe Ruth League with a 3-1 record. The Reds and White Sox are tied with 2-2 records, while the A's own a 1-3 slate.

WHITE SOX 5
REDS 4
The White Sox slipped ahead with a lone run in the fifth-inning and held on to edge the Reds 5-4. Greg Parker got 2 hits for the White Sox, while Scott Beck led the Reds.

DODGERS 7
A's 6
The Dodgers scored 7 runs in the second inning and turned back a late A's rally to claim a slim 8-6 win. Randy Vance got 2 hits to lead the Reds, while Jerry Siler and Randy Winters both got 2 hits for the A's.

DODGERS' 16
WHITE SOX 4
The Dodgers belted 9 hits and took advantage of 10 walks to rip the White Sox 16-4. Ken Yelverton got 3 hits and Andy

Leavy Boutwell Named

Head Coach At Brockton

Leavy Boutwell, a former All-American football player at Elba High School, has been named the new head football coach at New Brockton High School. Boutwell, who had served as an assistant-coach for the past two years at New Brockton, replaces Jim Murphy, who resigned to join the coaching staff at Carroll High, of Ozark.

"I am very excited," stated Coach Boutwell in a telephone interview, "and I am eager to get started. We have good community support here in New Brockton and we've got a good group of young athletes."

Boutwell is a 1971 graduate of Elba High School, where he lettered for five years in football. Boutwell was named All-State as a sophomore and a senior, and was named All-American his senior year.

"Football has always been my life," added Coach Boutwell, "and I'm glad to get a chance to be a head coach. We will have a dedicated group of young men next year."

People's Bank Remains Atop Women's League

The People's Bank and the Misfits continue to lead the pack in the Women's Softball League as the season nears the midway point.

PEOPLE'S BANK 9
SOUTHLAND CHICKS 4
The People's Bank overcame an early 3-2 deficit and rallied to dump the Southland Chicks 9-4. Kim Anderson scored 3 runs, and slugged a home-run to pace the Bank, while Angela Folmar got 2 hits to lead the Chicks.

CRICKETS 19
REDJACKETS 3
The Victoria Crickets grabbed an early lead and ran away to bury the Redjackets 19-3. Betty Foley had 2 hits for the Crickets, while Marter got the only 2 Redjacket hits.

MISFITS 12
FARM BUREAU 3
The Misfits scored all 10 runs in the first and last innings as they defeated Farm Bureau 12-3. Jackie Lewis got 2 hits to pace the Misfits.

Pictured above are, High Principal; Kinston Coach Pete Kelley and Mr. Ken Deaver, E.S.J.C. Athletic Director.

Plenty Of Runs Scored In

Men's Softball Action

The Men's Softball League took a night off last week for graduation, but there was still plenty of action with The Little Beaver, Dorsey and The People's Bank continuing to set the pace.

PEOPLE'S BANK 8
COFFEE INDEPENDENTS 7
The People's Bank pushed across the winning run in the bottom of the seventh-inning to edge the Coffee Co. Independents 8-7. Wayne Flowers got 2 hits to pace the Bank, while Larry Sanders had 3 hits for the Independents.

WISE'S 21
THORN & WALDON 16
Wise's scored 6 runs in the fifth-inning to pull ahead and held on to outscore Thorn & Waldon 21-16. Steve Williams had 4 hits to lead Wise's, while Keith Maddox and Buck Jackson had 3 hits apiece for Thorn & Waldon.

BRUNDTIDE FNB 13
SKINNER'S 13
Brundtide FNB fanned 10 runs in the sixth-inning to rally and defeat Skinner Furnace 13-13. Davis and Renfro both had 3 hits for Brundtide, while Bobby Joe Flowers had 3 hits for Skinner's.

PEOPLE'S BANK 20
KELLEY'S PACKING 8
The People's Bank scored in every inning to bury Kelley's Packing Co. 20-8. Jeff Wise had 4 hits to pace the Bankers' 21-hit attack, while David LeCompte and Freddie Thomas both had 2 hits for Kelley's.

ZION CHAPEL CHURCH 31
CONAGRA 5
Zion Chapel Church had no trouble as they blasted Conagra 31-5. Kent Smith had 4 hits to pace Zion Chapel's 23-hit attack, while Loman had 2 hits for Conagra.

DORSEY TRAILERS 18
HOSPITAL 6
Dorsey Trailers pounded out 12 hits to dump the Hospital 18-6. Ronnie Keith and Mike Farris had 4 hits apiece to lead Dorsey, while Jimmy Cooper had 3 hits for Hospital.

KELLEY'S PACKING CO. 21
BRUNDTIDE FNB 17
Kelley's Packing pulled off an upset by outscoring Brundtide FNB 21-17. David LeCompte ripped 4 hits to pace Kelley's, while Tim Ellis and

Gerrell Flowers both had 4 hits for Brundtide.

DORSEY TRAILERS 4
WISE'S 4
Dorsey Trailers led all the way to claim a solid 15-4 win over Wise's. Max Farris, Ronnie Keith, Roy Grimes, Bill Hall and Darrell Wilkerson all had 2 hits for Dorsey, while no Wise's batter got more than 1 hit.

GRIME'S OIL 9
ZION CHAPEL CHURCH 4
Grime's Oil pulled away late in the game to claim a 9-4 win over Zion Chapel Church. Neil Graham had 3 hits to pace Grime's Oil, while Tim Ballard, Chris Sanders and Charles Smith all had 2 hits for Zion Chapel.

PEOPLE'S BANK 14
WISE'S 2
The People's Bank pulled out of an early 2-2 tie to defeat Wise's 14-2. Wayne Flowers had 4 hits to lead the Bankers, while Junior Tadlock had 2 hits for Wise's.

KYLE'S FLYING SERVICE 8
KELLEY'S PACKING CO. 2
Kyle's Flying Service jumped into an early 4-0 lead and cruised to an 8-2 win over Kelley's Packing. Glenn Johnson got 3 hits to pace Kyle's, while Neil Henderson had 2 hits for Kelley's.

ZION CHAPEL CHURCH 31
CONAGRA 5
Zion Chapel Church had no trouble as they blasted Conagra 31-5. Kent Smith had 4 hits to pace Zion Chapel's 23-hit attack, while Loman had 2 hits for Conagra.

DORSEY TRAILERS 18
HOSPITAL 6
Dorsey Trailers pounded out 12 hits to dump the Hospital 18-6. Ronnie Keith and Mike Farris had 4 hits apiece to lead Dorsey, while Jimmy Cooper had 3 hits for Hospital.

KELLEY'S PACKING CO. 21
BRUNDTIDE FNB 17
Kelley's Packing pulled off an upset by outscoring Brundtide FNB 21-17. David LeCompte ripped 4 hits to pace Kelley's, while Tim Ellis and

Dixie Youth Report

The Dixie Youth Baseball League is in full swing and every game is full of action. In last week's play, the Yankees turned the first double-play of the season when shortstop Richard McKinnon fielded a grounder, stepped on second and fired the ball to first baseman Darren Smith.

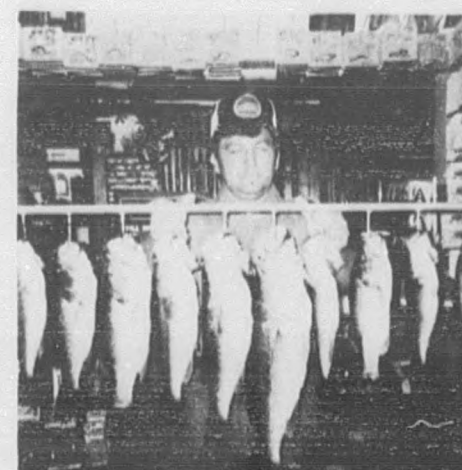

ASTROS 8
YANKEES 4
The Astros jumped into an early 6-0 lead and held on to defeat the Yankees 8-4. Rickson, Ammons and Kelley all got hits for the Astros, while Vidich had 2 hits for the Yanks.

METS 15
YANKEES 2
The Mets took charge in the middle of the game to defeat the Yankees 15-2. Wayne Jackson, Tommy Holt and Mike McCollough all got 3 hits for the Mets, while Flowers poked a two-run homer to lead the Mets.

TIGERS 7
ASTROS 4
The Tigers jumped ahead in the opening inning and held on to dump the Astros 7-4. Tommy Crawley got 3 hits to lead the Tigers, while K. Daniels got 1 hit and scored twice to pace the Astros.

METS 17
ASTROS 13
The Mets kept on winning by outscoring the Astros 17-13. Wayne Jackson got 4 hits to lead the Mets' 13-hit attack, while Terrell Hammonds got 2 hits for the Astros.

CARDINALS 11
YANKEES 3
The Cardinals scored 10 runs in the opening inning and coasted to an 11-3 win over the Yankees. Scotty Sullivan and

Record Spotted Bass Caught In Smith Lake

An 8-pound, 15-ounce, spotted bass caught by Philip Terry, Jr., has replaced Billy Henderson's 8-pound, 10-ounce, spot as the new world record and Alabama's state record. Both bass were caught from Smith Lake which is noted for producing trophy spotted bass.

A rule requiring claims for world record fish to be submitted to the IGFA within 60 days made it questionable that Philip's spot would be recognized as the world record. Ten months had elapsed since Philip caught this fish.

When the IGFA board of officials examined the information submitted on Philip's bass, they waived the 60-day rule and recognized the bass as the All Tackle World Record for Spotted Bass. Alabama subsequently recognized the fish as Alabama's state record.

Graduating Nurses Pinned At MacArthur

A pinning ceremony for the graduating class of Practical Nurses at Douglas MacArthur State Technical College in Opp was held on May 4 in the student center of MacArthur Tech.

Invocation was given by Mrs. Gloria Turner, instructor in MacArthur Tech's nursing program. Raymond Chisum, Dean of Instruction at MacArthur Tech welcomed guests followed by the senior class speech by Byrdell Kersey, C. Nevitt, president of the college, presented the President's Address to the group of candidates for Licensed Practical Nursing. Mrs. Jeanette Pugh, member of the Olden Auxiliary, presented each graduate with a white nurse's Bible.

The pinning ceremony was conducted by Mrs. Joan Simmons, instructor in the nursing department, and Mrs. Charles Gunter, director of the nursing program. Presenting each graduate with a red carnation, a gift from the nursing faculty.

Mrs. Gunter then led the group in repeating the Nightingale Pledge. The benediction was pronounced by Mrs. Cynthia Taylor, instructor in the nursing program of MacArthur. The processional and recessional was played by Steve Pearce.

The graduating group was shown, from left to right: Mrs. Jeanette Pugh, member of the Olden Auxiliary, presented each graduate with a white nurse's Bible. The pinning ceremony was conducted by Mrs. Joan Simmons, instructor in the nursing department, and Mrs. Charles Gunter, director of the nursing program. Presenting each graduate with a red carnation, a gift from the nursing faculty.

PASTOR'S CORNER

REV. CHARLES SUNDAY, ZION CHAPEL BAPTIST

A pastor in a seaside village in New England tells the following story:

It seems that one morning in October when he was down-town, he dropped by a cobbler's shop to watch him pound the leather with his hammer and listen as the happy cobbler hummed a merry tune. This little cobbler possessed a remarkable outlook upon life that marked him as being distinct and different.

The pastor looked around the dingy little shop, with its cramped quarters and its crowded shelves, and marveled that the man possessed such a spirit and never seemed to be depressed. Finally, he said: "My friend, don't you ever get tired of this narrow life and doing the same thing day after day in this crowded little room?"

The little cobbler walked to the back door, opened it wide, and said, "Whenever I start feeling depressed, I just open up this door." As he burst upon the vision a magnificent panorama of the out-of-doors. The room was suddenly flooded with a new glory. The cramped little shop was now completely changed by the vastness of its new relationship it had with the field and skies and rolling seas, and especially to the Creator of them all.

What a parable this is of life in general! One of the great dangers confronting most of us is that we live behind closed doors of our immediate circumstances, gaze at the same dark walls day after day, seeing the walls of our problems, gloomy thoughts, defeats and deep inner sorrows.

"For many are called, but few are chosen." MAT. 22:14-15

Graduates Honored At Bethany Baptist Church

During special services on Sunday, May 20, Bethany Baptist Church on Rt. 1, New Brockton, honored ten graduates with each receiving a book of Devotions and Certificate of recognition.

New Brockton High School graduates recognized were: David Adams, Donna Lynn Brantley, Donna Jane Carroll, Leslie Hartley, Robert Kenji Flowers, Deronda Smith, Lisa Jan Watson. Other graduates honored were Cindy Crosby, Lynn Brantley. Not pictured: Robert Flowers, Cindy Crosby, Sheila Stuckey, Cindy Watson and David Adams.

Bethany Baptist To Have Youth Sunday

Bethany Baptist Church will be having Youth Sunday on Sunday, June 3rd. The youth and young people will be in charge of all services, including Sunday School classes, Church Training sessions and all Worship Service activities.

The youth will conduct the Morning Worship Service with the Youth Choir leading the music, and two youth bring the message.

Concluding the Day's activities will be the showing of the film "In The Presence of Mine Enemies," during the evening service. A film you don't want to miss at Bethany Baptist Church on Sunday, June 3, 1979 at 6:30 p.m.

New Brockton Methodist To Have Revival

The New Brockton United Methodist Church will have a revival, beginning Sunday night, June 3, and going through Friday, June 8. Sunday night services will begin at 6:30, and all other night services will begin at 7:30. There will also be morning teaching sessions at 10:00.

Evangelist Bert Rouse of Lucedale, Mississippi, will be the visiting preacher. Danny Barfield is pastor of the church.

Everyone is cordially invited.

Sacred Harp Sing To Be At Shady Grove

The annual Sacred Harp Singing will be held at Shady Grove Church, Sunday, June 3. The church is located seven miles north of Elba on Highway 87.

Everyone is invited.

Alberton Full Gospel To Have Homecoming

Alberton Full Gospel Church will have Homecoming this Sunday, June 3. A covered dish luncheon will be served, and there will be afternoon services at 1:30, with the Dress Family from Opp, and a group from Pine Grove Assembly, "Praise & Glory."

Everyone is invited.

Owens - Henderson Engagement Announced

Miss Owens

Mr. and Mrs. Troy E. Owens of Rt. 1, Elba, wish to announce the engagement and forthcoming marriage of their daughter, Villa Maria, to Norman Eric Henderson, son of Mrs. Marie Henderson, of Rt. 3, Elba.

The wedding is planned for June 9, 1979, at 2:00 p.m. at Woodland Grove Baptist Church, Rt. 1, New Brockton. No local invitations being sent, but all friends and relatives are invited.

Miss Coleman-Mr. Wise Engagement Told

Miss Coleman

Mr. and Mrs. Norman Coleman of Birmingham, announce the engagement of their daughter, Cindy Boyd, to John Milton Wise, Jr., son of Mr. and Mrs. John Milton Wise of Luverne.

Miss Coleman is the granddaughter of the late Mr. and Mrs. Allen Calhoun Coleman of Allen, Alabama, and the late Mr. and Mrs. John Elwood Boyd of Comanche, Texas. After graduating from Vestavia Hills School, she attended the University of Alabama and studied fashion merchandising at the Southern Institute in Birmingham. She is presently employed by Parlane.

Mr. and Mrs. Dan L. Jackson of Newton Street, Elba, are proud to announce the forthcoming marriage of their daughter, Danette Jackson, to James Hattaway, of Elba. He is the son of Mr. O'Neal Hattaway, and the late Mrs. Louise Hattaway, of Elba.

The bride-elect is the granddaughter of the late Mr. and Mrs. Bud Jackson, of Elba, and the late Mr. and Mrs. J. H. Moore, of Elba, Alabama. Miss Jackson is a 1974 graduate of Elba High School and is presently employed at Elba General Hospital.

Grandparents of Mr. Hattaway are the late Mr. and Mrs. Jim Hattaway, and the late Mr. and Mrs. John B. Wise of Elba. He graduated from Crenshaw Christian Academy and received a B.S. degree in Business Administration from the University of Alabama, where he was a member of Sigma Nu fraternity. He is employed with Alabama Gas Corporation in Birmingham.

The wedding will take place June 30, 1979, at 7:00 p.m., at the home of the bride. No formal invitations will be sent, but all friends and relatives of the couple are invited.

Legion To Meet June 4

The 35th District of the American Legion and Auxiliary will meet Monday, June 4th, 1979 at 7:30 p.m. at Oak Legion Post Home No. 82 with Post 313 host.

A delicious meal will be served without charge and several valuable door prizes will be awarded. Special awards will be presented to outstanding accomplishments during the fiscal year. Many State Department officials will be present.

Senior Band Members Honored With Supper

The Senior Band members and their guests were honored with a steak supper on Monday, May 21st by Mr. and Mrs. Lenard Hargrove and Mr. and Mrs. W. J. Ballard.

Tables were set-up outside the Bullard's residence for the occasion and carried out the "1979 Seniors" chosen colors of silver and blue. The head table was decorated with floral candles in blue, fresh blue flowers and blue balloons.

Each Senior received as a souvenir a miniature cap, complete with tassel, which represents their completion of high school.

Those Senior band members attending were: Terri Davis, Elaine Grimes, Villa Owens, Beverly Hargrove, Andy Ballard, Anita Mobley, Lyndi Smart, Susie Bruce and Rhonda Knight.

Christina Carpenter Writes Winning Essay

Students from grades 3 - 6 recently participated in observation of Clean Air Week, sponsored by the Alabama Lung Association, by writing essays.

Christina Carpenter, fourth grade student at Elba Elementary School, received the winner's citation for her essay, "The Air We Breathe."

Graduates Honored With Tea

Mrs. Maxine Prescott and Mrs. Bess McInnis of Evergreen gave a tea Saturday afternoon, May 19 in Mrs. Prescott's home. Sharing honors were recent graduates Katrina Hayes, Elba High School and Debbie Boswell of Andalusia High.

Both babies and Mom are doing fine.

Guests were served from a tea table which was covered

Miss Vail To Marry Mr. Rainer

Miss Vail

Mr. and Mrs. Walter Benner Vail of Armstrong, Alabama, announce the engagement of their daughter, Catherine Lee, to Frederick William Rainer, Jr., son of Mr. and Mrs. Frederick William Rainer of Elba.

The bride-elect is the granddaughter of Mr. and Mrs. Joseph Miles Edwards of Tuskegee and Mrs. Ira D. Vail and the late Mr. Vail of Armstrong.

She is a graduate of Macon Academy in Tuskegee and is now attending Auburn University.

The future bridegroom's grandparents are Mr. and Mrs. Karl Douglas Thomas and Mr. and Mrs. Lamar Sidney Rainer, Sr., and the late Mrs. Violet Dantzer Rainer, all of Elba.

He graduated from Elba High School, and is also a graduate of Troy State University with a Bachelor of Science Degree in Secondary Education. He was a member of the Pi Kappa Phi Fraternity. The wedding will be an event of August 11 at 4:30 p.m. at the Fort Davis United Methodist Church, Ft. Davis, Alabama. Friends and relatives of the couple are invited to attend both the ceremony and the reception at the home of the bride-to-be.

Elba Members Attend BPW Convention

Mrs. Myrtle Sellers and Mrs. Betty Adkinson, members of the Elba Business and Professional Women's Club, attended the Alabama Federation of Business and Professional Women's Clubs State Convention, held May 18, 19 and 20 at the Hyatt House in Birmingham.

This was an extra special convention in that it was the 60th Silver Anniversary of the Alabama Federation.

On May 30, 1918, a temporary organization was formed in Birmingham with 78 charter members. Miss Annie Lynch started over the state and found a club in Mobile with similar interests and brought this club into the Federation. The Montgomery Club was organized in 1918, and the first annual convention was held in Birmingham along lines of industrial, scientific and vocational activities. The Federation serves its state and communities through many worthwhile projects, the largest of which is the Alabama Scholarship Fund. It has helped to build three more homes, a chapel, director's home, library and activities building, have all been completed and is now home for 40 girls.

This year the budget for Girls Ranch is \$150,000, with the Elba Club contributing the amount of \$1,300 as its "Fair Share."

The Elba Club always welcomes donations from the people of the community. These donations are tax-deductible and are greatly needed and appreciated. Call any BPW member and she will gladly pick up your donations.

May Is Mental Health Month

The month of May has been set aside as Mental Health Month by the Mental Health Association.

The Mental Health Association plays a vital role in coordinating many aspects needed for the prevention of poor mental health. It provides educational programs for schools, special programs for families and the public. Informational services on mental and emotional disorders, statistics on the state's needs, and resources for help are provided. They sponsor research into the causes, prevention, treatment and cure of mental illness.

This association promotes laws that provide adequate facilities, funding and professional help for the mentally ill and their families.

Mental illness is described by the American Medical Association as the Nation's number one health program. One out of every six Alabama citizens will suffer from some form of mental illness. Every person regardless of age, sex or social status is vulnerable.

A group of volunteers have been working throughout Elba during this month collecting, if you have been missed and would like to make a donation, contact Mrs. Walter Cox, 897-2508, Elba chairman.

UNUSUAL

Rarely do we get the great rains in May we have had this year. We have had adequate rainfall in most areas and have not had any heavy flooding rains in May.

The corn, peanuts, soybeans, gardens and pastures look great. But I learned several years ago that beautiful corn at the end of May can be ruined by the end of June if dry, hot weather sets in. I'm keeping my fingers crossed the next 30 days.

In any event, it was great to get the rain we got this past Thursday. I think it covered the county and, in fact, the Wiregrass area.

FEEDER PIG SALE

Several months ago the feeder pig sale in Dothan was struggling and the sale in Brundidge was trying to get off the ground. I am happy to report both sales appear to be doing fine. This is an excellent way to market pigs. It is also helpful to those buying pigs to get their needs of high quality pigs taken care of.

Five Coffee County feeder pig producers sold pigs at the Dothan sale last week. Those

NEWS FROM YOUR
PHARMACIST

BY KRIS SCARBOROUGH

The harp (left palate) is an affliction as old as mankind. This is the result of the palate not growing together properly, thus leaving an opening in the roof of the mouth.

Two halves of the palate are joined by a split upper lip which looks very much like the lip of a hare (rabbit) and hence the name.

This deformity occurs during the early months of pregnancy and can be caused by the mother contracting a disease. A cleft palate is not always caused in this manner. This deformity is also inherited in hereditary in some individuals.

Conservation
News

By WILL HUGHES, SCS

Many landowners in the county have a pond that are managing for bass and bream. Proper fertilization and chemical balance in the pond are important to maximize fish production per acre. SCS fisheries biologist, Dave Kelley, and I visited several pond owners a week ago that had complained about not getting a good coloration in their ponds.

Kelley says that early and proper fertilization should provide adequate phytoplankton bloom within three applications of fertilizer or something is wrong. Chemical balance of the pond is important, the acidity of the pond is a big part of the chemical balance. An acid condition will tie up nutrients that could otherwise produce plankton growth. If your pond is not responding to fertilization as well as you would like for it to, he suggests taking a soil sample from within the pond area and sending it to the Soil Test Laboratory in Auburn. Simply gather small portions of mud or soil at about 2 to 5 feet depths from 10 to 15 points around the pond (not all in one place) and let dry. When the soil is dry, place in the sample box and put "pond soil" on the box.

If time is needed in your pond, then agricultural lime should be spread over the pond to 25 to 30 pounds per acre. Concentrate the lime in one or two spots which will provide uniform treatment of the entire bottom as needed. Several trips with a boat will probably be required to spread the lime safely and uniformly.

A fertilized pond will yield approximately 175 pounds of bass and bream per year, as compared to 25 to 30 pounds from an unfertilized pond.

Close records should be kept on a pond where frequent fishing is done to avoid over-harvesting of fish. No more than 25 pounds of bass should be removed per acre per year. Harvesting of 150 pounds of bass can be safely harvested per acre annually. Over-harvesting of bass can cause an imbalance which will result in small bass and poor bass catches.

Mr. Kelley did suggest to pond owners who have done a good job of fertilizing for five years, that they could change to a more economical fertilizer of 8-2-2 or equivalent. He recommends using 40 pounds of Super-phosphate or 18 pounds of triple super phosphate per acre, after the application of the complete fertilizer of 8-2-2 or equivalent. This will help to hold down the cost of your fertilizer bills.

NEW DIRECTOR
Randy Johnson is the new director of the Farmers Home Administration in Coffee County. Randy and his wife and two small children have moved to Enterprise and Randy began his duties on May 7.

Johnson's parents are natives of Coffee County and Pike County and he grew up in Houston County.

He is a graduate of Auburn University, majoring in Animal and Dairy Science. He previously worked in Elmore, Tallapoosa, Clarke and Talladega Counties. We are fortunate to have a young man of Johnson's training, experience and dedication in Coffee County.

PEACHTREE BORER
Some of our agrishness firms are getting in materials to control the peachtree borer. Dursban and Loraban are excellent insecticides to control the peachtree borer. The borer will kill peach and plum trees. They cause a jellylike substance to form at the base of the tree and a couple feet up the trunk. They are very destructive. Loraban or Dursban or Thiodan 50 WP should be applied to the base and trunk of the tree, thoroughly wetting the trunk. This material is not always caused in this manner. This deformity is also inherited in hereditary in some individuals.

The dispensing of medicine is our business and you can be assured that we will expertly compound your doctor's prescription. Bring your prescriptions to us and your health is our primary concern. You can be assured that we care.

Coffee Correspondence
With Sara HutchinsonNews Of Interest To The
Women Of Coffee County

SKIRTS

According to retailers, skirt sales approached pants sales in 1978 for the first time in years. Magazines, newspapers and advertisements from endless sources have been pushing skirts as the "in thing" to wear. Women's desires to succeed in the business world have prompted them to reconsider career clothes and wear styles to impress the people they work with.

As the fashion cycle would dictate, the skirt is ready to be revised as a "new look" from years past. Contrary to past times, length is no longer considered an issue by the majority of retailers. The most popular skirt on the fashion floor will be narrow with slits.

Decorating ideas
When decorating your home, remember articles of simple design are more appropriate for all styles of furniture than articles that are heavily decorated. Many articles, such as china, vases, and trays, plants and dried grasses, and even some weeks make attractive decorative items. It's better to use just a few items so that each can be appreciated more. Use glass and silver items and will flowers during the spring and summer months. Use brass and pottery items and dried flowers.

A fertilized pond will yield approximately 175 pounds of bass and bream per year, as compared to 25 to 30 pounds from an unfertilized pond.

NO AGE BARRIER ON ATTRACTIVENESS
Being well-dressed is important at any age. An interest in personal appearance can give you self-confidence, improve your self-image and make you more attractive to others.

Unfortunately, clothing for older people has been given little attention by the ready-to-wear industry. Body changes often cause fit problems. Height decreases, figures become more pear-shaped and upper arms expand. With age, we begin to sag. Keep these shopping tips in mind when choosing new clothes. Look for clothes with large buttons and pull-tabs on the zippers. Buy garments with larger armholes and indefinite waistlines. Avoid sleeveless dresses.

Select clothes that are easy to put on and off. Choose colors that flatter your hair color and complexion. Fashion experts usually recommend dark colors and discourage buying black, which can have a darkening effect on the face.

Stay away from full sleeves, dangling ties, droopy fabrics and other clothes which are likely to get caught on nearby objects or can catch fire near a fireplace or heater.

Decorating ideas
When decorating your home, remember articles of simple design are more appropriate for all styles of furniture than articles that are heavily decorated. Many articles, such as china, vases, and trays, plants and dried grasses, and even some weeks make attractive decorative items. It's better to use just a few items so that each can be appreciated more. Use glass and silver items and will flowers during the spring and summer months. Use brass and pottery items and dried flowers.

He recommends using 40 pounds of Super-phosphate or 18 pounds of triple super phosphate per acre, after the application of the complete fertilizer of 8-2-2 or equivalent. This will help to hold down the cost of your fertilizer bills.

NEW DIRECTOR
Randy Johnson is the new director of the Farmers Home Administration in Coffee County. Randy and his wife and two small children have moved to Enterprise and Randy began his duties on May 7.

Johnson's parents are natives of Coffee County and Pike County and he grew up in Houston County.

He is a graduate of Auburn University, majoring in Animal and Dairy Science. He previously worked in Elmore, Tallapoosa, Clarke and Talladega Counties. We are fortunate to have a young man of Johnson's training, experience and dedication in Coffee County.

PEACHTREE BORER
Some of our agrishness firms are getting in materials to control the peachtree borer. Dursban and Loraban are excellent insecticides to control the peachtree borer. The borer will kill peach and plum trees. They cause a jellylike substance to form at the base of the tree and a couple feet up the trunk. They are very destructive. Loraban or Dursban or Thiodan 50 WP should be applied to the base and trunk of the tree, thoroughly wetting the trunk. This material is not always caused in this manner. This deformity is also inherited in hereditary in some individuals.

The dispensing of medicine is our business and you can be assured that we will expertly compound your doctor's prescription. Bring your prescriptions to us and your health is our primary concern. You can be assured that we care.

HINT FOR THE HOME: A good way to prevent ear rubs from shaking to the bottom of the tray after some have been removed is to simply put aluminum foil underneath them.

Patricia Rogers To Represent Elba At Girls State

Patricia Ann Rogers has been chosen to represent Elba High School at the 1979 session of Girls State to be held at Huntington College Campus in Montgomery, June 4th to 10th.

Sponsored by the American Legion Auxiliary, Girls State is a laboratory of practical government - a personal application of the duties, responsibilities and privileges of American Citizenship.

For one week she will become a citizen in the mythical State taking an active part in the political life of her community - campaigning and electing city, county and state officials. She will learn the operation of government by participating in party caucuses, through the election of Governor and State officials. Knowledgeable speakers on the various levels of government will enlighten the young women of their responsibilities.

Patricia plans to campaign for the office of State Auditor. Miss Rogers will speak to her sponsoring organization, American Legion, Girls State Post No. 42 and Auxiliary, and to other clubs upon invitation.

The daughter of Mr. and Mrs. James T. Rogers and Mrs. Mary T. Rogers, Patricia is the granddaughter of Mrs. Q. D. Fulmer and Mrs. C. D. Fulmer. She is the daughter of Mr. and Mrs. James T. Rogers.

A graduate of Elba High School, Patricia is a valedictorian of her senior class.

Each year the George C. Wallace scholarship is awarded to high school and junior college students who have excelled in academic and/or leadership accomplishments.

He is the son of Mr. and Mrs. William J. Bullard.
